DAHLIA PARTY

Top 3

FAVOURITES BY JAAP-JAN

Flower bulbs can be planted anywhere. In borders, in pots, mixed with perennials or annuals. JUB offers a wide range of varieties. We all have our favourites, just like Jaap-Jan.

My personal top 3 favourites

Summer flowering bulbs such as dahlias, lilies, gladioli and the many special summer bulbs are always beautiful to me. It's also fun to please others with it. That is why, in addition to the regular packages, we have beautiful gift items with an emphasis on packages with bulbs that attract bees and butterflies. Although we are currently busy packing and shipping spring bulbs, we are also busy with the upcoming summer season in the background. I also have my preferences when it comes to summer bloomers. See my top 3 below.

Jaap-Jan

1

2

3

1. Dahlia Party

The name says it all: Dahlia Party. A series of 4 newly designed Dahlia bags in cheerful colours with extra large flowering dahlias. The so-called 'dinnerplates'. Each bag contains 2 dahlias for 10-12 weeks of flowering time. That makes me happy.

2. Summer bulbs for pots

Not everyone always has a garden, but they do have a patio, terrace or balcony. Many types of summer bulbs can also be planted there. In decorative plastic or classic terra cotta pots or in elongated balcony planters. Within our range we offer many types of bulbs that are extremely suitable for pots, including our new gift packaging 'Pots & Balcony'.

3. XXL Echinacea Mix

New in our XXL range. Echinacea (coneflower) is a beautiful long-flowering perennial. This packaging contains a beautiful color mix. The flowers of the Echinacea have drooping petals with a large flower center and attract many bees and butterflies.

JUB HOLLAND

THE STRENGTH OF JUB HOLLAND

JUB Holland achieves healthy growth every year in the flower bulb market. We serve various markets from our modern accommodation, surrounded by our own nurseries.

1

STOCK FROM OUR OWN NURSERY

Much knowledge about flower bulbs

All about JUB

SINCE 1910

The knowledge and expertise that has been passed down through four generations, is the key to the success of our family business. What began in 1910 as Jac. Uittenbogaard is now an internationally operating flower bulb company, under the name JUB Holland.

Within our company, all facets of the profession are covered. This is how we distinguish ourselves from other suppliers.

GROWING & BREEDING

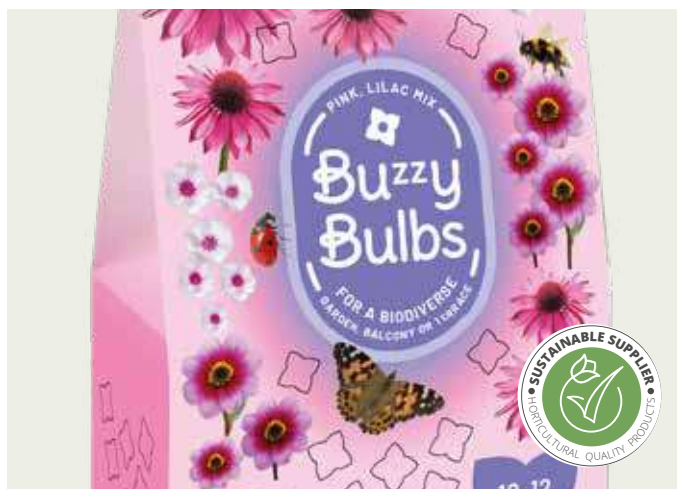

More and more sustainable, PlanetProof bulbs

Growing bulbs on our own nursery

The great thing about JUB Holland is that we are one of the few companies in the bulb sector to do everything ourselves. We grow, we breed, we trade. That also characterises our history. On 35 hectares of our own land, 35 tulip varieties and 15 daffodil varieties grow in the open air, all certified of course (MPS A and PlanetProof).

Breeding new varieties / Remarkable

We love to pull our strengths with those of others. That's why we are part of Remarkable Tulips, a collective of seven flower bulb growers and exporters that works on the breeding and development of new tulip varieties. These bulbs are of the very best quality and have a high resistance to diseases. Breeding requires patience, but the result is more than worth it: the most stunning and most exclusive tulips.

SUSTAINABLE SUPPLIER

From nursery to consumer

We have a strong reputation to maintain with our packaging. We work with world-renowned stylists who apply their talents to create distinctive designs. We are therefore always up to date with the very latest trends.

The quality of our bulbs is our top priority. All our packaged bulbs now have the new quality mark 'Sustainable Supplier of Quality Products'.

See website: www.sustainablesuppliers.nl

WE CARE ABOUT THE ENVIRONMENT / PLANETPROOF

We are proud of our environmental certificate PlanetProof, which has been developed in collaboration with various environmental organisations. With this certificate, JUB takes a leading role within the sector. Our company is MPS-A and NL-Greenlabel certified, and was one of the first companies to have achieved the PlanetProof label.

Purchasing PlanetProof flower bulbs encourages sustainable flower bulb production and protects the environment!

BIODIVERSITY

Biodiversity is a priority for JUB. The habitats of bees and butterflies have become increasingly smaller. Many bulb flowers are attractive to butterflies and bees. That's why it is important to plant bulbs attracting bees and butterflies. See our bee and butterfly logos on the various packages.

BULBS FOR LANDSCAPE

Creativity is our great strength

Greening up cities is an international trend, in which JUB Holland plays an active role (we can make a total concept). Indeed, you could even call us a trendsetter: in the 1980s we developed a planting machine which plants flower bulbs under grass at lightning speed.

Our customers are local authorities, companies, gardeners, famous parks and well known landscape architects in Europe, United States and Canada.

JUB AT KEUKENHOF 2023

Spring bulbs to enjoy

The 2022 theme was 'SILK' and the design was based on an evening gown of Queen Maxima, designed by Jan Taminiau. Main shade was soft lilac, through which royal blue, purple, cream and apricot tones were 'woven'.

For 2023 there will be a new exciting design.

Please follow our @JUBToday updates. To see the result yourself, visit Keukenhof: **March 23 - May 14, 2023**

New stories

SPECIAL CONCEPTS

Flower bulbs are about promises. After months of waiting, the most beautiful spring flowers come from all shapes, sizes and varieties. JUB creates special concepts around these beautiful flower bulbs every year.

New stories

Story 1, Buzzy Bulbs

4 colorful packs in a modern design. Each pack contains a mixture of summer flowering bulbs with a flowering time of 10-12 weeks that attract bees and butterflies. A perfect gift item.

P 75

Story 2, Dahlia Party

4 cheerful bags with 2 dinnerplate dahlias in each bag for 10-12 weeks of flowering. Fresh colours: orange, pink, red and yellow. They fit in any summer garden or in pots on the patio or balcony.

P 69

Story 3, Pots & Balcony

2 beautifully designed packs 'Kiek and Saar, with bulb mixtures that are especially suitable for planting in pots on a terrace or balcony. Two mixtures. A nice gift for family, garden friends or just for yourself.

P 73

FLOWERS
for pot and garden

WHAT IS SO SPECIAL ABOUT THE SWEET BEE FLOWERS BAG?

By using this bag we bring sustainability and biodiversity together.
Wonderful dahlias that will attract bees.

In addition, this mixture is packed in a **Zero-Tree®** bag.
So no trees had to be cut down for this. This material is made
from recycled jeans. A very nice combination.

JAVADO® webshop

ORDER FAST AND EASILY THROUGH THE JAVADO WEBSHOP

Our selection is available in our webshop 24/7. Here you can view the entire up-to-date selection per category or by using the search functions. The photos provide a real-life representation of our selection and you obviously see the price assigned to the product. Order your dry bulbs before 11 AM on Wednesday for delivery the next week.

We allow the plants to remain with the grower for as long as possible, because we realise that nobody can take better care of the product than the actual grower. If you prefer, we will supply your products with a price sticker or special label upon arrival. As the afternoon draws to an end, we prepare your order for dispatch and the truck departs to the final destination.

You cannot get products any fresher than this!

JAVADO®
