

New Plants Entry

HTA National Plant Show 2026

Aeonium Pink Witch

A true explosion of colour, Aeonium Pink Witch can be planted outdoors from May and loves sunny conditions. Even rain will not stop it from thriving. In fact, sunlight will only intensify its colour.

Gasteria D. Nella

Gasteria 'D. Nella' is a striking plant with fleshy, slightly twisted leaves featuring dark stripes. It is a low-maintenance plant that can grow both indoors and outdoors.

Now available from Javado 541050

Wild kalanchoe "Alligator"

What an unusual leaf this Kalanchoe has. The leaves resemble the skin of an alligator.

This plant originally comes from Madagascar.

Now available from Javado 540897

Acer Palmatum Golden Trompenburg

A stunning Acer, Golden Trompenburg is very special due to its golden colour. Normally, Trompenburg is known for its red-brown foliage.

Ananas Baby Boomer

The name says it all: this pineapple produces many small baby plantlets. This gives this ornamental pineapple even more decorative value.

Place the plant in a bright location and water regularly in the plant's rosette.

Available from week 35 at Javado 520641

Anisodonteia Carnival Lights® Candy Apple

The Anisodonteia Carnival Lights series adds larger, longer-flowering blooms to the existing assortment. These medium-compact shrubs produce an exceptional abundance of flowers over a very long flowering period from May through autumn.

Please ask your account manager when available

Anthurium andr Laguna

Laguna is a striking tropical houseplant, characterised by its unique purple-white pastel spathes. It is no coincidence that Laguna is named after a lagoon, a paradisiacal oasis of turquoise water and white beaches. This unique colour combination is a first within our assortment.

Available from week 33 at Javado 531021

Anthurium andr Valentino

As the name suggests, the red Valentino® is a plant to fall in love with. The small, heart-shaped red flowers rise beautifully above the foliage.

Now available from Javado 540528

Buddleja davidii Butterfly Candy Little Blackberry

Butterfly Candy® is a very floriferous series. The flowers have a light, sweet fragrance and are highly attractive to butterflies and bees, making this series excellent for biodiversity.

All varieties are well-branched, and due to their compact size, they are ideal for containers and smaller gardens.

Please ask your account manager when available

Catharanthus Soiree® Lavender Magic

Soirée® is a strong collection of robust plants with small, charming flowers that bloom all summer long. These heat- and drought-tolerant plants maintain their bushy, compact growth throughout the season and combine easily with each other.

Please ask your account manager when available

Chamaecyparis law. Elpaso

What a beautiful Chamaecyparis ‘Elpaso’ is. Compact growth with star-shaped branches—truly a gem within the Chamaecyparis family.

Please ask your account manager when available

Cissus Quadrangularis

Cissus quadrangularis is a succulent known for its easy care and resilience, making it an ideal choice for beginners.

Please ask your account manager when available

Dendrobium nob. Striped Elegance Variegata

This Dendrobium is truly unique, with variegated foliage and bicoloured flowers that make it a real eye-catcher.

It blooms for up to 10 weeks and continuously produces new shoots.

Please ask your account manager when available

Euphorbia Milii Tiara Alexandra

Alexandra is a remarkable addition. It features exceptionally large flowers and an intense pink colour.

This means you can enjoy this Euphorbia for a long time.

Please ask your account manager when available

Fargesia One Boo™ Silkleaf

This is a non-invasive bamboo. The name Silkleaf says it all: this bamboo has narrow, fine, silky leaves.

A nice addition to the One Boo™ series.

*Now available from Javado 537871 (17 cm pot)
537870 (14 cm pot)*

Gynura Variegata

The Gynura has always been a striking plant with its beautiful purple colour. Now the Variegata has been added, featuring even more attractive leaf patterning.

The plant prefers bright, indirect light to maintain its beautiful markings.

Water regularly.

Now available from Javado 528196 (12 cm pot)
528197 (7 cm pot)

Hydrangea Black Steel® Red Fox

The Black Steel series is already very popular. This successful range has now been expanded with a red hydrangea.

Featuring the same beautiful contrast: dark stems combined with fresh green foliage.

Please ask your account manager when available

Labisia obtusifolia Kura Kura (turtle back)

This plant has very distinctive foliage. Thick leaves with strongly contrasting veins create a striking 3D effect, making it resemble a turtle shell.

A plant that remains beautiful even without direct sunlight, making it ideal for a desk or indoor space.

It also does not require much water.

Now available from Javado 504609

Lophospermum Lofos Pink Swing

This unique Lofos® is definitely one to watch. Pink Swing features a truly distinctive bi-coloured flower that cannot be found anywhere else. The beautiful white flowers with pink stripes running from the centre outward ensure this plant stands out in any garden.

Please ask your account manager when available

Osmanthus Perfume Part

Osmanthus Perfume Party is a beautifully compact, rounded dwarf shrub that provides year-round colour and also adds fragrance to the garden during the summer season.

Perfume Party is a strong plant. It is hardy, highly disease resistant, and can easily handle heat, drought and humidity.

Osteospermum Señoritas Angelica Ton Sur Ton

The Señoritas® series has been known for some time, and a new variety has now been added: Angelica.

A flower with a stunning colour gradient, from a bright pink tone to a warm orange shade.

Please ask your account manager when available

Osteospermum Señoritas Maaïke Ton Sur Ton

Another Osteospermum has been added to the Señoritas® range: Maaïke.

With her light pink colour, she is unique within the Osteospermum palette.

These Señoritas® can shine in the garden, on the balcony or on the patio.

Pelargonium graveolens Isko Lemon

This fragrant lemon geranium releases a fresh citrus scent that helps repel mosquitoes when the leaves are touched.

Place this geranium in a light position where temperatures do not drop below around 13°C and preferably not rise above 20°C. After the last night frost, it can be placed outdoors in the garden, but bring it back inside before the first frost.

Please ask your account manager when available

Peperomia Creme Brulee

The leaves of this Peperomia feature a mix of cream, green and light yellow tones, creating a truly unique leaf pattern.

It prefers a position with indirect light, which helps the lighter tones remain most visible. In too little light, its colours will fade.

Do not keep the Peperomia too wet; allow the soil to dry out slightly between waterings.

Now available from Javado 536595

Phalaenopsis Optistar 3t 18+ Shakira

Phalaenopsis Optistar Shakira has a long flowering period, meaning it can produce flowers for almost the entire year.

The flowers are characterised by large, light yellow blooms that create an attractive contrast with the green leaves. The flowers have a soft pink blush, giving them a tender and romantic appearance.

*Now available from Javado 529425 (3-stem, 18+)
541205 (3-stem)*

Portulaca Bloomigo

Looking for a strong summer bloomer with extra sales appeal? Then Portulaca Bloomigo Carnaval is an excellent choice for your assortment.

Blooms up to 25% longer

Now in a 19 cm pot

Flowers open earlier and close later, meaning a longer flowering period on sunny days

Beautiful contrast between the flowers and dark green foliage

A real eye-catcher for garden and patio, allowing consumers to enjoy abundant flowering for a long time

*Now available from Javado 237845 (19 cm pot)
540887 (27 cm pot)*

Sempervivum Chick Charms Giants Glacier Blue

The very best of Sempervivum Chick Charms® in giant form! Chick Charms® are among the world's most popular, collectible sempervivums and are 100% beginner-friendly. Drought-tolerant, hardy, water-saving, strong, low-maintenance and climate-resistant.

Glacier Blue is a new addition to the Chick Charms® Giants series and features icy blue edges with a pink centre. An exceptionally large specimen, with colours that beautifully contrast with pink and gold tones!

Please ask your account manager when available

Sempervivum Chick Charms Giants Maroon Mountian

The very best of Sempervivum Chick Charms® in giant form! Chick Charms® are among the world’s most popular, collectible sempervivums and are 100% beginner-friendly. Drought-tolerant, hardy, water-saving, strong, low-maintenance and climate-resistant.

A fantastic addition to the Chick Charms® Giants series is Maroon Mountain. Maroon Mountain has a rich, deep red colour. An absolute eye-catcher!

Calathea Stella

The Calathea Stella strongly resembles the Calathea White Fusion, but it is still different. The leaves are larger and longer, and the leaf pattern contains more white. The leaves are also slightly thicker. As a result, it can tolerate a position with less light. It is available from Javado.

Now available from Javado 517520

Wild kalanchoe "Octopus"

What an unusual leaf this Kalanchoe has. The leaves resemble the tentacles of an octopus. This plant originally comes from Madagascar.

Now available from Javado 530775
